## Ride 4 United Way 2010

From Larry VA3FHG

On Sunday, August 29 fifteen (15) members of our club met early at the Garnet B. Rickard Rec. Centre in Bowmanville to support the Ride4UnitedWay Tour (<http://www.ride4unitedway.com/>).

For this event we had the following operators:

- Net Control – Peter VA3PWH and Will VA3WEW
- Blackstock – Tom VA3TVK
- Enniskillen – Tony VA3Zai
- Orono – Martha VA3SBD and Clint VA3KDK
- Newcastle Beach – Steve VA3TPS
- Heartbreak Hill – Joe VE3VGJ
- Water Truck – Luis VA3TCL
- Food Truck – Gary VE3EPY
- Mobile – Ralph VE3CRK
- Mobile – Ken VE3RMK
- Mobile – Peter VE3PWJ
- Mobile – Larry VA3FHG
- Sweep – Mike VE3VCY

Jeanette from the Oshawa Cycling Club supported our Net Control. She was there to direct the mobile units and answer any queries.

Two club members joined us later in the day – David VA3DBJ and Alex VA3AMP with Alex taking a turn at Net Control.

VE3OSH was used continually from 8:00 a.m. till around 4:00 p.m. and worked flawlessly.

2009 was the first year the United Way used the event as a fundraiser. The event previously was sponsored by the Oshawa Cycling Club and was called the Scugog Circle Century. The United Way were not aware of what we can do to enhance the information flow and keep the riders safe. In 2010 they left all communications to the professionals – us.

Thanks for the positive comments about what went well, and the constructive comments on how we can improve and do a better job in 2011. These will be passed along to the organizing committee.

The Ride4UnitedWay will be on Sunday, August 28, 2011 next year. Mark your calendars.

+++++

# The 2010-2011 kick-off meeting

From Pete VA3PWH

The Club year kicked off with this message from our Club President:

Well, NSARC members, a full summer has passed and we are about to launch a new season.

To help us get to review our summers and latest interests, I have arranged to move the meeting from the Legion to 660 Hillcroft Street for a barbecue meeting.

Please let all other members know by calling them even if you think they already know. That will get the conversation going early and will assure your fellow members that someone cares that they come to the meeting/barbecue.

The single most important thing about NSARC is the friendships we develop with other folks who share our interests I'd like to see a full house. The house, back yard and front porch will all serve for conversations and are totally open to you.

I'll supply hamburgers and buns and hot dogs with buns along with condiments. Please bring along any liquids you wish to consume and perhaps a little item for a couple of people to have as desert. Alternately, you might bring a little salad.

Please, please come. I think it will be worth it. Anyone who does not drive a t night please ask for a lift. We need all of us there.

73 de Pete

This was our Club meeting for September:

As you can see it very a very nice evening for one that was supposed to have rain.....

supposed to be here... where were you?

+++++

The fall season is an important time for all of us. Not only do we have to prepare for winter on the bands, Our Club has a lot to do as well. The changes to our insurance mean a new time table for renewal of our membership. The membership renewal process started this month. Don't forget.

Your humble scribe,,  
de Ken.

## What's New at Durham Radio - Page 1 of 2

If you would like to receive our "What's New" mailing (about once every other month) along with subscriber only deals, visit our [HOME PAGE](#) and add your email address. (bottom right)

### Important Announcements & Reminders

**About this Mailing** - This mailing includes products from our August What's New at Durham Radio mailing. If you are not a subscriber to our mailings or missed a few previous issues, you can have a look at the archives [HERE](#).

**New Lower Pricing on RT Systems Programming Software** - Why spend forever trying to program all your favourite frequencies into your rig when you can do it far more easily from your computer. If you already have all of your frequencies loaded in your rig, you can save them to your computer, modify them and upload back to your rig. It's also handy to have a backup of your frequencies should you need to reload them. Our price on most models has been reduced over 20%! Click [HERE](#) for the RT Systems products currently available.
