

North Shore ARC UPdate!

December 12, 2014

The annual Run for the Cure event was another resounding success. As usual NSARC took the lead with emergency communications. Steve VA3TPS was the co-ordinator with Dave VE3GUD, Steve VA3SPZ, Ralph VE3CRK, Ken VE3RMK, Peter VE3PWJ, Luis VA3TCL, Gary VE3EPY, Joe VE3VGJ and Laird VE3LKS all assisting at various locations.

Upcoming Dates

- January 20
Monthly meeting

Annual Christmas Party Tuesday, December 16

Don't forget that our Christmas Party potluck is this coming Tuesday evening. Please let Martha VA3SBD know what you will be bringing. You can reach Martha at va3sbd@gmail.com

Membership Renewal

Hi everyone, it is that time of year again when membership renewals are due. Attached to the email that you received you will find a membership renewal form in pdf format. Please print it off, fill it out, and return it to us asap.

November Meeting

November's meeting featured a presentation by Dave VA3RLP/KA6RLP and Glen VE3LIZ on controlling your radio remotely. Dave, having ties to both the Oshawa and Southern California area, travels between both areas regularly and wants to stay in radio contact with friends at the other end. Both Dave and Glen held our rapt attention during the presentation and created a buzz of questions and conversation. Thank you, Dave and Glen, for a very educational session.

Hamfest Update

As our search for a Hamfest Co-ordinator continues the presidents of our two clubs, Dave VE3GUD of NSARC and Dave VE3EAB of SPARC have stepped up to fill the roll on a temporary basis. Please consider joining the Hamfest team and volunteering for this position.

If you have not renewed your membership then starting January 1, 2015 you will not receive any further communications from the club until your membership is renewed. If you have questions regarding your membership please contact

**Dave VE3GUD at
midnightexp@teksavvy.com**

If you need a note put in the UPdate please email Laird at ve3lks@yahoo.ca

Glen VE3LIZ and Dave VA3RLP/KA6RLP presenting on remote control radio stations at our November meeting.
