

JUNE EDITION - 1978

EXECUTIVE AND OFFICERS

THE NORTH SHORE AMATEUR RADIO CLUB

President	Bob Miller	VE3HNN	723-0601
Vice-President	Don Dewey	VE3GEN	668-8776
Secretary	Cy Hamilton	SWL	263-8157
Treasurer	Steve Wotton	VE3CFG	725-4197
Registrar	John Pluister	VE3FGL	655-4269
Get Well Cards	Ted Brant	VE3ADD	668-3516
Editor	Glen Flintoff	VE3AEQ	725-6408

NEXT MEETING:

The next meeting will be at the O'Neill Collegiate in the third floor study room on Tuesday, June 13, at 8:00 p.m.

Ralph Day CRK will fill us in on field day activities and Wayne Montague of DX Communications will demonstrate some new equipment.

NEWS ITEMS:

Our congratulations to Ed Swynar VE3CUI on winning the DXCC award. We are sincerely sorry that Ed's father passed away recently.

We are all deeply grateful to Don Dewey GEN and staff members of the Andrew Antenna Co-Ax Plant at Ashburn for the very interesting tour of their manufacturing facility, which was followed by refreshments in their cafeteria.

The Amateur Exams were held on May 31 and this will result in some new calls being heard in the very near future.

Congratulations to the successful candidates and to all others - hang in there because success will be yours next time around.

The Nonquon Canoe Race was a huge success with a record 203 entries. The organizers were very pleased with Don Cole HYW and his group of amateurs for a job well done.

The transmitter hunts have begun again - the first was on May 31 at 7:30 p.m. and these will be held weekly on Wednesday nights at the same time. Come out and challenge the regulars.

COMING EVENTS:

The Field Day will be the next big one at Eric HMG's QTH. He and his XYL have provided a fine facility and have ordered good weather for the occasion. See you there June 24 - 25. Attached to this issue will be a map and a list of Field Day essentials. Come and have a great time.

JUNE EDITION - 1978

The 'Scots' are blowing more than their bagpipes about their operating prowess so maybe a little sand in their oatmeal will slow them down.

We hope to have a large attendance of SWL's and XYL's, pictures and tapes of previous Field Days.

Ed Swynar CUI will be a tent manager assisted by Pete Solly DFD and three transmitters and a generator.

Don HYW and Milt QN are spearheading the 2-metre activities with a bag of novel tricks.

Our annual 'Sermon on the Mount' in the form of a pilgrimage to the repeater site will take place on Tuesday, July 11. Bring your XYL's and binoculars and see how it all happens.

While it's well in the future, don't overlook the corn roast event at Steve CFG's QTH on the third Tuesday in August. He and XYL Shirley do a superb job of hosting this event.

REPORT OF ACTIVITIES OF THE NORTH SHORE AMATEUR RADIO CLUB TWO METRE NET

This report covers the month of May, and June 1st.

The net is holding up well despite stiff competition from Boston versus Montreal, Win-a-Million draws, spring chores of gardening, and getting the boat ready, etc. Just shows the attraction of hamming! The average number of check-ins for this period was 43.5

Notes of interest: Syd VE3FAQ and Hart VE3FO are both working on Quagi antennas, and Bill VE3CUJ is building a 10-metre Quad. Bill VE3RI is suffering severe intermod. distortion from a nearby paging source. He played back a taped bit of reception to illustrate. Bill, you sure do have a problem - sounds real rough! Al VE3CLE very briefly demonstrated his new Automatic Dialer for mobile use. With several dialing speeds and memory recall it sounds interesting. Gwylim VE3BAB is awaiting delivery of his new Yaesu 90i due shortly. Fine biz. Oh yes, not to forget that Don WAZACN demonstrated his ability to balance his key on one knee, the code oscillator on the other knee, his mike on the remaining knee, and call-in on c.w., while Georgia watched approvingly.

We all are awaiting with interest the results of the exams held on May 31st. To all who are waiting in suspense, our sincere good wishes for happy results. If by any chance any of you don't make it, remember Robert Bruce and the spider! To conclude - our usual 'thankyou' to all taking part in net activity, and a warm welcome to others to call in at any time.

So now - On to Field Day and the merry key-klix slaughter.

73 & 88's, Perce, VE3AEX, Net Control

JUNE EDITION - 1978

Bob Jones ADJ's 8-year old daughter submitted the following fine poem.

FIELD DAY

On the last weekend in June of each year
The Field Day guys set up their radio gear
No Matter what weather
They're always together.

On Ground Hog Hill is where they meet
The antennas are up 60 feet
All radio bands are set up in different tents
With guys to work them as many contacts they can send.

Twenty-four hours is a long time on the band
But the guys have everything in hand
Food and drinks and singing are part of fun
With all of that, they still get lots of sun.

By Ellen Jones

The following 'Goodies' are offered for sale -

TRANSMITTER - Harvey Wells TBS50
Complete with H.V. Power Supply

RECEIVER - Aircraft Bendix Type 1155
With power supply

Also, a Hallicrafters SX71 General Coverage Receiver

Miscellaneous Items for

TBS50

Call Ted Brant at 668-3516

One only - Radio City Products - Sweep Signal Generator
Range 70 to 300 MHZ
